

Vol. 32 No. 52

Irma, Alberta, Friday, July 19, 1946

Regular Meeting of M. D. Wainwright

The Council of the municipal district of Wainwright No. 61 met in the council chamber of the office of the municipal district on Thursday, July 11, 1946, at 10:00 a.m. Councillors Dally, Spencer, Sutherland, Taylor, Smale, Golding and Archibald were present.

Minutes of June 13, 1946, read. Spencer—That the minutes of June 13, 1946, be approved as written. Cd.

Golding—That the accounts as approved by the finance committee and accounts subsequently passed by Council, amounting to \$18,577.53, be passed and paid. Cd.

Smale—That in the matter of outstanding accounts of the university of Alberta hospital that a cheque for \$70.00 be forwarded to them to make up the amount to \$670.00 that the said hospital would accept a payment in full of all accounts to date contracted by the former M.D.'s of Vale and Ribstone.

Dally—That the Reeve and Treasurer be and are hereby authorized to borrow \$10,000.00 for Municipal purposes on Securities held. Cd.

Smale—That the Sec-Treas. be appointed Bailiff for the M.D. Cd. Taylor—That in accordance with the 1946 Amendment to the M.D. Act, Mr. Archibald be appointed to represent the M.D. at the Board of Trustees meetings of the Wainwright Division No. 32 and that Mr. Smale be an alternative representative.

Smale—That the Secretary advise Mrs. Casper that if necessary, the M.D. will contribute an additional \$50.00 for one month for the care of Mr. B. O. Casper but it will be necessary for her to get this help. Cd.

Secretary advise D. LaRue that if he deposits \$10.00, a permit will be issued to cut willow fence posts and that the District will expect 1/2 cent a post for each one sold.

Smale—That the Secretary advise Mr. George Matheson that his application to purchase the SE 24-46-5-4 for \$1500.00 cash is being withheld until the November meeting of the Council. Cd.

By-Law No. 170 concerning the sale of Lots 6 and 7, Block 1, Fabyan, to James Marchand for \$125.00 cash, presented.

It was moved and carried that By-Law 170 pass its first, second and third reading.

By-Law 171 concerning the sale of Lots 6 and 5, Block 4, Ribstone to D. Clifford, for \$25.00 cash presented.

It was moved and carried that By-Law 171 pass its first, second and third reading.

The Reeve asked the Council to let the Sec. have a list of surveys required in 1946 within the next two weeks.

The Sec. was instructed to obtain information as to survey in SW 2-43-4-4 and 35-42-4-4.

Applications for Motor Grader Operators from A. E. Allen of Irma and Roy. Dyer of Ribstone read and referred to the Public Works Committee.

Archibald—That this Council recommend to the Dept. of Public Works that part of the old highway north of section 28-45-9-4 be cancelled. Cd.

Taylor—That the amount chargeable to Divisions for the use of the new No. 12 power grader shall be \$4.50 per hour and that No. 311 when following the elevating grader shall be \$3.50 an hour.

Sutherland—That the paysheets as signed by the Councillors, amounting to \$5937.41 be passed and paid.

Sutherland—That this Council endorse the action of the Agricultural Service Board with reference to the 1946 program of Weed Control.

Sutherland—That the report of F. W. Maddex, Field Supervisor as given be accepted. Cd.

Correspondence from the Dept. of Agriculture re appointment of Stuart Robblee as District Agriculturist for this territory and transfer of his headquarters from Hughenden to Wainwright read.

Obituary

FUNERAL SERVICE FOR FRANK VOROS

(High River Times)

Frank Voros, Hardisty cowboy, who was injured at the Nanton stampee in a steer riding contest on June 20, died in High River hospital on July 4 without regaining consciousness. The young man's parents live in Windsor, Ont., and so do three brothers. His wife, and her parent, Mr. and Mrs. Art Long of Irma have been in High River since the accident occurred.

The regard in which Frank Voros was held by the cowboy fraternity was evidenced in the great representation of rodeo riders at the funeral service which was held Monday afternoon in Calgary. Rev. J. Powell officiated, with the Jones' Funeral Home in charge and services were held from Leyden's Funeral Home. Rarely is there seen such a profusion of floral gifts and the floral piece from the Canadian Cowboy Protective Association was a magnificent tribute. Pallbearers were all cowboys with whom the young man has ridden at many a stampee. They were Ross, Hinkley, of Hardisty, Ken Thompson of Black Diamond, Carl Olson of Cardston, Ken Brower of Manyberries, Albert Gagnier of Sunny Neck, Urban Doan of Halkirk. Also in attendance were Warren Cooper, Crawford Frost of Nanton and others who deeply regretted the tragic death of a most popular young man.

Floral tributes were from, Loving wife; Cowboys Protective Association; Mother, dad and brothers; Uncle Pete, Aunt Sophia and girls; Nanton Agricultural Society; Taber Rodeo Society; Mr. and Mrs. J. C. McLean; Mr. and Mrs. F. C. Saville; Mr. and Mrs. R. Dempsey; Mr. and Mrs. Knudsen, Helen, Ruby and Nell; Annette and Bob; Mr. and Mrs. P. E. Jones and family; Ace and Harriette; Mr. and Mrs. E. B. and Mrs. Ross McFarland; Walter and Hazel; Mr. and Mrs. Syd Johnston; Lawrence and Ivan; Wiese and family; Louie and Marie; Mrs. Reed and family; Gladys and Seabassie; Mr. and Mrs. Ross Hinkley.

With the Field Supervisor By F. W. Maddex

Canada and perennial sow thistle infestations are becoming worse, and more so this season due to increased rainfall over most areas. Now is the time to check the thistles from blowing and causing further infestation another year. Experimental work has shown that the food reserves in the root of thistles are lowest just when the plant comes into bloom. This is the weakest stage in the plant's life. So don't wait until the thistles are ready to blow, but cut and burn them now before the grain is headed out and you can find all the patches of infestation. If in the event some patches are missed and are located during harvest your neighbor will thank you if you leave them undisturbed in the field and burned later. A combine or threshing machine is the handiest way to spread thistle seeds so let's start now to decrease the weeds and increase the bushels. I hope the above hints will be of some benefit and if there is any further information you wish to know please contact me by phone or mail at the M.D. of Wainwright office and I will be only too pleased to help you to the best of my ability.

Archibald—That the following Weed Inspectors be appointed. Division 1. E. Pitman; Div. 2. F. Snyder; Div. 4. John Murray; Div. 5. R. Thomas; Div. 7. W. Prusser; and that they be paid at the rate of 50c per hour and 8c per mile necessarily travelled to go out on call from the Field Supervisor.

The matter of a meeting of the Wainwright and District Association was discussed and the Sec. was instructed to advertise the date for Tuesday, July 30, at Wainwright.

Spencer—That the meeting adjourn to meet at 9 a.m. Thursday August 8, 1946. Cd.

Items From Kinsella District

The sympathy of the community goes to Mrs. Kosteriva and family on the death of Mr. Kosteriva.

Congratulations to Mr. and Mrs. K. Overbo on the birth of a daughter.

Miss Patricia Carpenter entertained her friends on the occasion of her birthday.

Miss Carol Olsenberg is visiting her uncle and aunt, Mr. and Mrs. O. Olsenberg.

Mrs. Gardener and Sharon are holidaying in Rosetown, Sask. Mr. and Mrs. F. Jack and daughter are away on a vacation.

A christening ceremony was held on Sunday when Mr. and Mrs. Lloyd Witton's daughter was given the name Paralee Ann.

Rev. Geo. Steele preached his farewell sermon at this service. At the conclusion he was presented with a purse. Mr. R. Cornack made the presentation.

TWO TRAINS CRASH; REPORT NONE HURT

Passengers and crew involved in a head-on collision between two Canadian National Railways main line trains Monday escaped serious injury, when the No. 4 eastbound flyer overshot a switch near Dunn, 24 miles east of Wainwright, and crashed head-on into the No. 1 westbound passenger train, CNR officials said.

The accident occurred at 4:30 a.m. when many passengers were asleep in their berths, but outside of a shaking-up none was reported in need of medical attention, officials said.

Both engines were damaged considerably and one car of fruit next to the tender of the east-bound train was buckled and its contents strewn over a wide area.

Officials said a contributing factor in the accident was probably the extremely heavy fog which descended on that district, 160 miles east of Edmonton, obscuring light signals.

The Elliott shows stopped over in Irma for Friday and Saturday of last week. This miniature circus provided plenty of thrills for the kiddies.

EASTERLY ECHOES

Mrs. Harold King had the misfortune to cut her foot quite severely and spent a few days in the Wainwright hospital.

Recent visitors at the home of Mr. and Mrs. Joshua Holt, included their son, Mr. W. Holt, of Prince Rupert, Miss Lily Holt, also Mrs. J. A. Holt and children, Mavis and Norman, of Smithers, B.C.

Mrs. M. Steele enjoyed a visit from her son and wife, Mr. and Mrs. William Steele, of Wainwright. Mrs. Steele is a Scottish bride and had just arrived from overseas a few days before.

Mr. N. Horning and family, of Lloydminster, are holidaying with relatives, the Rome family, of Roseberry.

Mrs. K. Stougaard had as her guests her sister, Mrs. Marie Christopheron and son Walter, of Oshkosh, Wis., also a cousin, Mrs. Martha Rasmussen, of Wausau, Wis., last week. Mrs. Stougaard accompanied them for a week's visit with her daughter, Mrs. J. Hamilton, of Hanna. From there they will make stops at Banff, and other western points on their way home.

Mrs. J. A. Holt and family are planning to visit at the homes of her sister, Mrs. Allen Taylor and her brother, Mr. Martin Enger, before returning to Smithers, B.C.

The A.F.U. picnic at Roseberry on July 12 was a huge success as evidenced by the large crowd of farmers and friends that gathered there for the day. The results of the gentle softball games were, 1st Fabyan and 2nd Metropolitan. The Fabyan horse shoe contest, Val Perrie, E. Valle, F. Bacon and S. Thompson. The Fabyan ladies team also won their game.

Mr. Milsap of A.F.U. district No. 6 spoke to a very interested crowd and a goodly sum was collected to swell the fast-growing strike fund.

Wedding Bells

CURRIE-HARTNER

The Sacred Heart manse was the scene of a quiet but pretty wedding when Elizabeth, daughter of Mr. and Mrs. Hartner, of Edmonton, became the bride of Arthur, Gerald Currie, son of Mr. and Mrs. Gerald Currie, of Edmonton, formerly of Irma. The ceremony was witnessed by the bride's cousin, Mrs. McNabb, and her brother, Mr. Chas. Hartner.

For her wedding, Miss Hartner chose a white jersey dress with white accessories, and carried a bouquet of red roses.

Following the wedding a reception to about 16 guests was held at the Hartner residence. The bride's table was laid with a beautiful hand-embroidered linen table cloth which had come from Germany and was centred with a wedding cake flanked by pink candles.

The happy couple then left for a honeymoon at Jasper, the bride travelling in a brown ensemble. Mr. and Mrs. Currie will make their home in Edmonton.

JOHNSON-BACON

At 4:00 o'clock on Tuesday, July 9, at the home of the bride's parents, Margaret, Alice youngest daughter of Mr. and Mrs. W. Bacon, of Irma, and Lawrence Deland, Mrs. S. Johnston also of Irma, and Mrs. S. Johnson, also of Irma, were united in marriage by the Rev. Whelan of Wainwright United Church.

Given away by her father, the bride looked lovely in a sky blue afternoon frock of rayon crepe and carried a bouquet of morning glories and sweet peas. As bridesmaid, Miss Anna Pascha, niece of the bride, wore a flowered mauve afternoon frock and carried a bouquet of morning glories and sweet peas.

The groom's brother, Mr. Ivan Johnson, was best man.

The home was tastefully decorated for the occasion with summer flowers. Covers were laid for more than 30 guests. Centering the bride's table was an artistically decorated three-tier wedding cake.

The happy couple left for a short honeymoon in Edmonton. Mr. and Mrs. Johnson intend to make Edmonton their home.

JOHANSON-BERGE

A beautiful wedding took place on June 20 at one o'clock at the Bethesda Lutheran church, when Mildred Clara Johanson, daughter of Mr. and Mrs. Ivan Johanson of Kinsella and Tenes Christian Berge, son of Mr. and Mrs. Tennes Berge of Christiansand, Norway, were united in marriage by the Rev. I. Saugen, Viking.

The bride was given away by her father, while the organist played the wedding march.

The bride wore a white floor-length lace over satin gown and a train length veil falling from a wreath of white roses. She carried bouquet of American Beauty roses.

Irene Johnston, sister of the bride was her only attendant and wore a light blue floor length gown and carried a bouquet of pink roses.

Lorraine Mikkelson was flower girl. She wore a white taffeta dress and carried a small bouquet of mixed roses.

The bride's mother wore a flowered jersey with navy accessories.

The groom's attendant was Arvid Johanson, brother of the bride.

While signing the register, Mr. Nels Djos sang "O, Promise Me."

Following the wedding ceremony, a large dinner was served in the Viking Hotel. In the centre of the table was a lovely three-tiered wedding cake.

Guests attending the dinner were: Mr. and Mrs. I. Johanson and family; Mrs. J. Mikkelson and family; Mr. and Mrs. A. Nordstrom and family; Mrs. J. Osback and Ernest Sedgewick; Mr. and Mrs. Bert Cumberland of Sedgewick.

The newlyweds motored to Rock Glen, Sask. the next morning. For the trip, the bride wore a three-piece blue suit with dark brown accessories. When returning, the couple will reside on the groom's farm north of Sedgewick.

Farm Safety Quiz

Prepared by Alberta Industrial Accident Prevention Association

How safe is your farm? How safe are your work habits?

Test your Safety Knowledge with this quiz and see how you rate for Safety. Take 10 marks for each correct answer. 70 marks is a Pass.

1. A majority of farm work accidents involving animals are caused by—
(a) Bulls.
(b) Horses.

2. A recommended practice in the management of the breeding bull is—
(a) Keep him in properly constructed pen at all times.
(b) Permit him to run with the herd.

3. The 1944 farm accident toll for Alberta was—
(a) 28,000 injured.
(b) 2,800 injured.

4. Accidental death claimed how many Alberta farm people in 1944?
(a) 542.
(b) 288.

5. The cost of a farm and home accidents in Alberta, 1944, was—
(a) \$3,750,000.
(b) \$1,000,000.

6. The proper way to lift a load is—
(a) To keep the back straight bend the knees and lift with the leg muscles.
(b) Bend the back, keep knees straight and lift with the back muscles.

7. Where should portable ladders be kept?
(a) Leaning against a building for convenience.
(b) Hanging from pegs on a wall out of the weather.

8. To start a car or tractor in a garage you should—
(a) Open the doors first.
(b) Start the engine first.

9. During an electrical storm it is safest to—
(a) Take shelter under a tree.
(b) Stay in the open.
(c) Get under a wire fence.

10. Carbon Monoxide gas has—
(a) A sharp distinctive odor and a smoky blue color.
(b) No odor whatever, and is colorless and tasteless.

11. The effect of carbon monoxide gas is to—
(a) Cause manual suffocation.
(b) Cause oxygen starvation.
(c) Irritate the nose and throat.

Safety Quiz answers: 1, (b); 2, (a); 3, (a); 4, (b); 5, (b); 6, (a); 7, (b); 8, (a); 9, (b); 10, (b); 11, (b).

WORLD OF WHEAT

By H. C. L. Strange

The "Crop Testing Plan" Summer Work

Many thousands of samples of wheat, each representing a farmer's crop now growing, have been sown at a number of points in western Canada. Many farmers during the course of the summer will as usual, visit the dominion experimental farms and our prairie universities to see the good things in agriculture being shown. Visitors to these farms and universities should make a point of seeing the "Crop Testing Plan" samples which will there be found growing for the "Crop Testing Plan" work is all done with the kind co-operation of these worthy institutions.

At these plots farmers will be able to see at a glance the kind of wheat crops that are being grown in different districts. Scattered among these plots of farmers' samples will be found true-to-variety plots of the variety best suited to the district, so a direct comparison by the eye can be made. Some good samples will be seen and some, unfortunately, consisting of mixed varieties.

"Crop Testing Plan" plots enable each farmer to know precisely the relative true-to-variety of the crops he is growing on his own farm, so he can judge whether he should secure better seed for next year's sowing.

The annual convention of the Camrose Federal Constituency CCF Association is being held at Strone on Monday, July 29. Watch for further notice.

UNITED CHURCH

Irma—Sunday school 11:00 a.m.
Public worship at 8:00 p.m.
Alma Mater—Public worship at 4:00 p.m.

Albert—Public worship 2 p.m.
Strawberry Plains—Sunday school and public worship at 11:00 a.m.

The Rev. H. W. Inglis will be in charge.
A hearty invitation to all.

CHRISTIAN AND MISSIONARY ALLIANCE

Education Point—11:00 a.m.

July 22 to 26, daily vacation Bible school at 9:30 a.m. Each evening at 8:00 p.m. Rev. Cairns, from India, will be preaching.

Hardisty—3:45 p.m.

Irma—Bible school 2:15 p.m.

Gospel service 8:00 p.m.

Rev. Cairns will be speaking at all services.

A welcome to all.
"I will have mercy and not sacrifice: for I am not come to call the righteous, but sinners to repentance." Matt. 9:13.

ST. MARY'S CHURCH NOTES

There will be celebration of Holy Communion in St. Mary's church on Sunday July 21 at 2:30 p.m.

FARMERS AND THE STRIKE

Mr. Milsap, at the Roseberry picnic, said, in part:

We can quite easily understand that non-agricultural groups, who are not familiar with the hardships endured by the farmers during the 10 years depression period and also the all-out mass production period of war time, not liking the idea of farmers being organized one hundred per cent, and in a position to carry out an effective non-delivery strike.

We have no grudge with our consumers, but we are involved in an inflationary cycle of prices on processed articles while the price ceiling is held on the farmer, which can quite easily leave us in a more disastrous condition than the 30's. It is not necessarily the cash price of our commodities that we are interested in, it is the purchasing power of our commodities that interests the Alberta Farmers' Union.

When we go on strike it will not necessarily be for a higher price, but for an equalization of prices, something that would and could bring about an equalized standard of living in this Dominion of ours, and give the farm women and children an opportunity to live a life equal to that of our more fortunate town and city dwellers, who have modern conveniences in their homes. And don't forget that if it were not for the farmers there would not be any cities and towns in western Canada.

LADIES' AID NOTES

The Roseberry and Alma Mater Ladies' Aid will hold its next meeting at the home of Mrs. J. Rome on Thursday, July 25, at 2:30 p.m. Mrs. A. Cooke will have charge of the devotionals. Mrs. Yonkers and Mrs. Oldham will assist the hostess. All visitors are welcome.

The Irma Ladies' Aid met at the home of Mrs. James Fenton with Mrs. Black, second-vice-president, in the chair. Twenty members and 10 visitors were present. The next meeting of the Irma Ladies' Aid will be held at the home of Mrs. Elton Fenton on August 8.

The New Ration Books

IT WAS ANNOUNCED recently that in September, the sixth ration book will be distributed in Canada. There was a time when it appeared that ration book number five would be the last one to be issued, and that by the time the coupons in it had been exhausted, conditions would be such that rationing would no longer be necessary. On the contrary the war food situation is now more serious than it was at any time during the war, and the necessity for the continuation of rationing here is apparent to everyone. We also know that under our present system we are infinitely better off than the people of Britain, Europe and the Orient; and in many Canadian homes today there is voluntary rationing of foods which can be shipped abroad.

Should Be Ready To Co-operate

In announcing the decision to issue new ration books, Mr. Donald Gordon, chairman of the Wartime Prices and Trade Board, said: "Continued rationing in Canada is this country's answer to a world crying for help. As long as human beings in so many countries of the world are starving or near starvation, it is unthinkable that Canadians should refuse to do their share in helping out." There will be few who disagree with Mr. Gordon in this respect. As yet, Canada has been untouched by any real food shortage, such as has been experienced in other countries. There are many who believe that before the current world food crisis is over, this continent will be more seriously affected than it has yet been. Whatever the situation may be in the future, there is no doubt but that we are at present fortunate in comparison with the people in other parts of the world, and we should be more than willing to co-operate readily in whatever measure of rationing the authorities consider to be necessary.

Many Volunteer Workers Needed

Distribution of the new ration books will commence on September 9th, and will be issued through the six hundred local ration boards situated across Canada. As in the past, thousands of volunteer workers will be needed to assist in the task of distribution, and an appeal has been issued to all those who are in a position to help, to offer their services as early as possible. Consumers have been asked to keep in mind that much of the responsibility for receiving the new books lies with them, since the books must be sent to the local distribution centre. It has also been pointed out that while books are to be issued throughout the week of September 9th, all local distribution points will not be open continuously during that time, and it is the responsibility of the consumer to find out at what times the centre in his locality is to be open. For their own convenience, and in the interest of saving the local ration boards time and trouble, citizens should make every effort to co-operate fully in securing their new ration books promptly.

LEARN HAIRDRESSING

Clean, steady, interesting, refined, good paying profession. Hundreds of positions now open. Many start own shops. Train under direct supervision of outstanding beauty culture experts. Complete, thorough, superior training. The Nu-Fashion method assures success. Write or Call—
NU-FASHION BEAUTY SCHOOL

Life Savings

Not So Easy Now To Live On The Low Interest Rates

Until a few years ago scores of thousands of Canadians could contemplate secure retirement on life savings of \$10,000 to \$20,000. A farmer could sell his farm, or a small merchant his store, invest the proceeds at 6% and this income plus that from what he had already saved would allow him to live in comfort the rest of his days. He can't do that now and with interest rates still declining he will be in greater difficulties tomorrow. Twenty thousand dollars invested in good securities gave a man an income of about \$100 per month before the war. To get the same income now requires an investment of \$40,000. In the meantime those planning retirement face a double squeeze. The tremendous increase in income tax makes it more difficult to accumulate savings and the sharp rise in the cost of living makes a greater income from those savings necessary. — Financial Post (Toronto).

NO DUST NO RAIN

There would be no rain in the world were it not for dust particles, which provide surfaces on which the tiny particles of moisture condense to form drops of rain.

BURGESS BATTERY COMPANY

Price Control And Rationing Information

Q.—What happens to the meat coupons and tokens which are turned in to the Local Ration Boards and voluntary collecting organizations for the supplying of meat to starving people overseas?

A.—All meat tokens and coupons are turned in to the Local Ration Boards by the voluntary organizations and these are counted at regular intervals. The Meat Board then knows exactly how much extra meat will be available for export. Through the coupon collection system, up to the end of May Canadians made \$25,000 additional pounds of canned meat available for shipment to the hungry.

Q.—Instead of turning in meat coupons and tokens which will not be needed for a family's own use, would it not be just as well to destroy these coupons at home rather than send them to the Local Ration Board on a voluntary collecting organization?

A.—If you destroyed these tokens and coupons in your own home, the Meat Board would have no way of checking on how much meat was being used by you. For every valid meat coupon and token you turn in the authorities know definitely that that much less meat will be needed to meet the ration.

Q.—How many canning sugar coupons are allowed us this year?

A.—Ten coupons have been validated for the purchase of canning sugar, each coupon being good for one pound of sugar. On May 2 the first five coupons were declared valid and on July 4 the remaining five were validated. The coupons used for the purchase of this sugar are the sugar preserves, and, if canning sugar is required, the coupons may be used for the purchase of preserves.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

HAD NO INFORMATION

H. G. Wells attributed the decline and fall of the Roman Empire to the lack of newspapers since there was no method of exchanging information between Rome and outlying regions.

ALWAYS DEPENDABLE WRAPPED AIRTIGHT TO ENSURE POTENCY

New Ration Book

Will Be Ready For Distribution In September

More than 600 local ration boards across Canada are preparing for the distribution of ration book No. 6 during the week of Sept. 9 to Sept. 16. Official announcement of the distribution was made by Donald Gordon, chairman of the Wartime Prices and Trade Board.

"Continued rationing in Canada is this country's answer to a world crying for help," Mr. Gordon said in making known the government's decision to issue another ration book. "As long as human beings in so many countries of the world are starving or near starvation, it is unthinkable that Canadians should refuse to do their share in helping out."

Thousands of volunteer workers will again be recruited to serve at distribution centres, and local ration boards throughout the country are calling for volunteers.

Officials pointed out that, while the distribution will be continued during the week in various parts of the country, local distribution centres will be open only on certain days throughout the week, and warned consumers to watch for local announcements previous to September 9 to learn when centres will be open in their own locality.

As in past distributions, it will be the responsibility of consumers to call for their own books.

Late-comers, who have not picked up their books by the final day on which the centre is open, will not be able to receive a book before Sept. 30, and will thereby cause themselves considerable inconvenience.

Parasite Service

Method To Combat Insects Carried On In Canada

The Imperial Parasite Service which uses insects to destroy other harmful insects, may remain at Belleville, Ont., where it moved as a war "refugee," it was learned.

The last five years of operation in Canada showed that collection of insects and study of methods of combatting the pests can be effectively conducted from Belleville where climatic conditions are often nearer those of the Antipodes and the colonies than usually found in the United Kingdom.

BRITISH TAKE OVER

ALDERHOT, Hants, England.—The Canadian military prison and detention barracks at Headley Down, Hampshire, was officially taken over by British military authorities. Canadian detention barracks now are at Bramshott.

OUR COMPLETE SHORT STORY—

Tale Of A Mouse

By M. J. COLLINS

Copyright Wheeler Newspaper Syndicate

STAN JACKSON owned the service station beside the pine grove a few miles outside the town. It was a good location and Stan made a fair living. He was a happy-go-lucky sort and everyone liked him, but he had one great fault. He loved to talk. To anyone and everyone about anything. Once he got started it was hard to head him off. Mice were his pet subject at that moment, and he claimed if everyone started to catch them systematically, the country would be saved a million every year.

This was Saturday and he'd been busy all day, and so had the cash register.

"What's going on now?" Highway Patrolman Clancy Burke asked as he stepped into the service station. Stan looked up from the corner where he was bent over fixing something. "I'm trying to catch a mouse," he answered, "and having a time of it, too."

"Trying to save a million dollars, I'll bet," Clancy laughed.

Stan straightened up and opened his mouth to say something, but Clancy cut him short with, "I know, you told me before, and before that also, so I'm almost just as much an expert on the subject as you are."

A sheepish grin spread over Stan's face. "Guess I do talk a mile too much, he admitted.

"Listen, Stan," Clancy's mood turned serious. "There has been a lot of service stations robbed lately, youngsters seem to be at the racket, so don't leave too much cash lying around."

"Oh, they'd never bother with a place like this. Stan's mind wasn't on Clancy's warning. "Now if I could only catch that mouse," Clancy fled.

The next few hours were busy ones for Stan. The farmers, in town for the evening, were his main customers, but now they were gone and he could close. It was well past midnight when he eased himself into his rocking chair for a look over the newspaper. "I'll stay open till one o'clock, just in case there are a few more to come, he thought.

Hardly had he settled down when there was a "knock."

"Ah," he cried. "I've got you this time, mouse!" He got up, he rushed back to the corner. He pushed the box aside, but the mouse was gone, and he was left with a cheese. Stan scratched his head. This mouse had put it over him for almost a week. Getting another bit of cheese he reset and placed the cheese just in case there are a few more to come, he thought.

"I'll get you yet!" he muttered, shaking a fat at it, and picked up his pen.

The car grinding to a stop woke him up. Before he was out of the chair, the door opened and a man stepped in, closely followed by a girl.

"Good evening," Stan said, starting to move behind the counter. The man looked hard and grim.

"Stand where you are!" The voice sent chills up and down Stan's spine.

"Put up your hands."

A small automatic's ugly snout was pointing where Stan had always considered his heart was. Right now it was pounding in his mouth. His hands shot up with all possible speed.

"Wise guy?" the man sneered.

The cash register sat on the counter at the opposite end. There was almost two hundred dollars in it.

"Take it easy, buddy," the man laughed. "It's going to help the poor, eh babe?" he said to the girl.

"Yeah!" from the corner of her flaming mouth.

If Clancy were only here. Stan's ears were straining for the sound of the motorcycle.

"Here," the man said curtly, "hold the gun on him." She took it while he emptied the register.

The sight of his vanishing money made Stan see red.

"Don't try it, sap!" the woman said coldly.

A pair of small, beady eyes stared out of a hole in the wall. The mouse started to run across the floor. The girl screamed and dropping the gun, scrambled up on a chair.

Cursing, the man turned. All the fury in Stan's flat crashed into his face. He went crashing into the wall and slumped to the floor.

In the excitement the sound of the motorcycle had gone unnoticed. Clancy had stepped inside, surveyed the scene and quietly asked, "What goes on?"

Stan heaved a sigh of relief. "You're just in time."

"I think so," Clancy said, dryly, taking the gun out of the shaking hand. "This might go off and damage someone. And as an afterthought, 'even you.'"

The two would-be thieves had been taken away. Stan and Clancy were in the back drinking coffee.

Green Grass NNOR ROTENONE SPRAY

A remarkable new contact insecticide spray with tremendous killing power against aphids, leaf hoppers, mealy bugs, thrips and other insects attacking vegetables, garden flowers, house plants and certain types of fruit stock. An excellent replacement for insecticides for nicotine sulphate, 1 lb. 1 oz., 5 oz., 16 oz. and 1 gal. sizes.

Trademark Reg'd. AT YOUR LOCAL DEALER

Clancy asked, "Just how did you get the drop on them?"

"Well," he replied, "he handed the gun to the girl. Migoosh, wait!" he cried, rushing out to the front. In a few seconds he was back. "Look at this," holding up the trap. The mouse was pinned by the tail.

"Ah! Success!" Clancy chuckled. Setting the trap on the floor, Stan released the mouse.

"What in the world did you do that for?" Clancy asked.

"The mouse proved my argument," Stan beamed. "It saved the country two hundred dollars."

COMEDIAN KILLED—An automobile accident proved fatal for Charles Butterworth, film comedian, who died following injuries received when his car skidded 50 feet and hit an electric light standard in Los Angeles, Calif. The comedian suffered severe head injuries and died in an ambulance as it was arriving at hospital.

Was Really Stuck

Experience Of Princess Elizabeth On Freshly Painted Reviewing Stand WINDSOR, Surrey, Eng.—Princess Elizabeth shared the emotions of a fly on sycamore after reviewing members of the Auxiliary Territorial Service, the women's division of the army, at the Imperial Staff College. She literally stuck to the reviewing platform freshly painted in her honor and left sticky white footprints across the parade ground when she walked.

For A Teen-Ager

By ANNE ADAMS

Style and sewing treat for any teen-ager! So smart, so simple to make is Pattern 4832 that a young beginner herself would enjoy doing it. Let her get started now! Pattern 4832 comes in Teen-age sizes 10, 12, 14 and 16. Size 12, front, 2 1/2 yards 36-inch fabric. Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

FEWER SHEEP

The Effect Of The War On Sheep Flocks

The numbers of sheep in the world have been reduced about 12 per cent. to approximately 88 per cent. of pre-war, states Agriculture Abroad, issued by the Economics Division, Dominion Department of Agriculture. Heavy wartime damage occurred in the Soviet Union where 27 million sheep and goats were lost, or 10 1/2 million pre-war flock, leaving about 74 per cent. intact. Most of the Soviet Union's sheep are reared on the steppes of Asia which explains the relatively less serious injury to sheep and goats than to the other classes of livestock. The natural increase of these flocks, together with the acquisitions from occupied countries may bring the sheep and goat numbers up to within 15 per cent. or so of pre-war by the middle of 1946.

Wartime and recent damage to flocks in occupied countries is very serious. Sheep are easily driven on foot and require little feed except grazing while in transit. For example, it is estimated that about 86 per cent. of the sheep in Hungary had been removed by the end of the war. By August, 1945, another decline was noted, and the process seemed to be continuing.

Europe as a whole, excepting the Soviet Union, is estimated to have preserved 76 per cent. of the pre-war flock. In countries which have not suffered extensive war damage, the maintenance of sheep was easier than that of hogs, because sheep can subsist largely on grass. Nevertheless, preference for milk production instead of meat has reduced the sheep flocks more than cattle herds.

Outside of Europe, sheep numbers increased only in South America. There was a decrease to 93 per cent. of pre-war in Oceania and to 86 per cent. in North America. Taking advantage of the decrease in those two important areas (which concentrated upon beef and pork) and also through the sustained British demand, South America increased sheep flocks to 114 per cent. of the pre-war. A large part of the increase occurred in Argentina, where ample pastures are available.

SMILE AWHILE

"You are lying so clumsily," said the judge to the defendant, "That I must advise you to get a lawyer."

Alman: "Is that your new sailor?"

Sailor: "No. Just the old one painted over."

A young wife was recently accused of running away from her R.A.F. husband. A bolt from the blue.

A black market racketeer was recently described in court as "a fox of no fixed abode." Now the magistrate has fixed one for him.

An American racketeer says he has never believed in shooting. His motto is evidently "Spare the rod."

"New facts are continually being discovered about animals in custody," states a member of the Zoological Society. The finders are keepers.

"I'm afraid you can't use your poem," said the editor.

"What is wrong with it?" asked the poet. "Is it too long?"

"Yes," said the editor. "Too long and too wide and too thick."

Father had been telling his little son that the sun is over ninety million miles away from the earth.

"Well, then," said Willie, "I should like to know how the sun-light manages to get here so early in the morning without travelling all night."

The song was "Aaleep in the Deep" and the singer was well and truly deep when a terrific voice from the back of the hall assailed him.

"Go easy, old chap! You'll scuttle yourself if you're not careful."

"I've come to settle my account," said the long-term debtor.

"Your last letter was a stinger—why, it would get money out of a stone."

"Yes," smiled the tradesman, "I chose the best bits out of the letters my wife sends me."

"Remember, my boy," said the wealthy uncle, "that money does not bring happiness."

But the young man was ready for that one.

"I don't expect it to," he replied; "I merely want it so that I shall be able to choose the kind of misery most agreeable to me."

"Please, sir, I don't like the soup, sir."

"Nonsense," said the officer, briskly; "that soup is good for you. It's full of vitamins."

"There," said the next private in a triumphant whisper. "I told you they wasn't flies."

A BIG BUSINESS

Canada's Poultry Industry Is Made Up Of Small Businesses

The poultry industry in Canada has become big business. It is made up, however, of a multitude of small businesses. It is in the continued success or non-success of these individual businesses that the story of the future will be written, says the Egg and Poultry Market Report, Dominion Department of Agriculture. It is only by the closest attention to the rules of good management that these individual businesses can hope to succeed. The fullest possible utilization of the products of nature is a basic principle in economics and good management.

In poultry management, there are some things often overlooked, such as grass, earthworms, water, air, light, earth, and exercise. Grass is the most readily available source of vegetable protein and essential nutrients for poultry, and animal protein is easily obtainable in earthworms. Only one or two species of earthworms may carry poultry parasites. They can be avoided. Water is almost more important than feed. From their peculiar structure poultry suffer more readily from lack of water than from lack of feed. Light is essential especially in the fall and winter. High producing stock needs extra light and extra feeding time to produce well. Concerning earth, there are vitamins in good earth and contentment for the birds in a dust bath, and in good poultry management it is a maxim that growing stock should be obliged to range for part of its ration. — St. Thomas Times-Journal.

Cheap Food

Era Is At An End If Cost Of Production Goes Up

The end of the "era of cheap food" in Canada was predicted by R. C. Smellie, president of The National Dairy Council, in an address prepared for delivery before the Ottawa Rotary club.

"I doubt very much if we can continue to have cheap food and at the same time expect the farmer to pay high wages and high prices for the things he must buy," Mr. Smellie said.

Canadians were eating more good food now than before the war. They became accustomed to cheap food in the depression years, and wartime price controls had kept food prices down. Canadian farms were producing more milk than ever before, and the dairy industry had a great future, if production could be increased.

New processes made it possible for Canada to export dairy products anywhere in the world, but production was not enough to supply all the nation's needs and export also.

Unless Canadians lowered their standards of living, they would require more dairy products, but with the rise of prices and wages, the farmer must ask higher prices, Mr. Smellie said. The only way to keep food prices down was by reducing the cost of labor and equipment.—Ottawa Citizen.

The Unemployed

Man Cannot Find Job He Likes At The Wages He Wants

In the old days, an unemployed man was one who couldn't find work. Any kind of work. Now, an unemployed man is one who can't find the particular kind of work he prefers, in the place he prefers, at the wage he prefers.

In Vancouver, for example, there are something like 10,000 unemployed men and women. Yet strawberry growers in the nearby Fraser Valley can't get enough help to pick their \$3,000,000 crop. The berry growers could use 5,000 men and women—but the response from Vancouver is small.

As a result, hundreds of women are being brought in from the prairie provinces to pick the berries—with the government paying their fare. Meanwhile, Vancouver's jobless stay right where they are, waiting for something to turn up. Something, that is, to their liking. — Calgary Herald.

Could Be Regulated

People In Canada Would Not Suffer From Breadless Day

As there are meatless days there could be breadless days. It could be ordered, as an alternative, that no more than one slice of bread or one roll be served to any customer with a full meal, and that only on specific request. Back of this there might be control of the amount of bread or flour available to the caterers. Waste of bread in the home is much harder to control, without rationing, but the restaurants should not offer any great difficulty if the authorities will attack the problem zealously. Certainly it is shocking that recklessly we should throw good food into the garbage pails while millions of our fellow-humans are in dire need of it.—Ottawa Journal.

MAKES GOOD PET

GRAND VALLEY, Ont.—Most Ontario farmers are sworn enemies of groundhogs—but Jack Clegg, who farms near this Dufferin county village, caught one and tried it out as a pet. Now it roams the farm at will, and when whiskered and played with the family dog.

Sinus Sufferers

GET QUICK RELIEF

MENTHOLATUM

Clear head and cool nose and keep Mentholum sinus relief. Use of mentholatum relieves sinus trouble, cures colds, and soothes throat.

THE POTATO CROP

From present indications the potato crop in Canada for 1946 will be 23 per cent. above the 1945 crop. Based on the farmers' intention to plant and an average yield per acre, the outlook is for a crop of 74,000,000 bushels. The 1945 crop was 59,976,000 bushels. 2679

FURTHER REDUCTIONS IN HOURS OF WORK

The announcement has been made by Hon. C. E. Gerhart, minister of trade and industry, that the long split shift was henceforth abolished within the province. The order, effective immediately, provides that if a shift is to be split at all the eight working hours of any employee shall be confined within a ten-hour period during the day. In other words each employee in Alberta shall complete his normal days' work in ten hours or less.

In announcing a series of orders relating to hours of work, Mr. Gerhart pointed out that "the practice in some employments formerly was to retain the worker on call for periods up to twelve and even fifteen hours. That meant an employee going to work at 8:00 o'clock in the morning did not complete his day until 8:00 o'clock or even 11:00 o'clock that night. That of course was something of a hardship for the employee, even if he had several hours off work between the two parts of his shift."

Another order by Alberta's board of industrial relations as announced by Mr. Gerhart prohibits female employees in the province from starting or ending their working period between 12:30 a.m. and 6:00 a.m. in any day. A third order provides that the eight hour day and the forty hour week shall apply to all employees in Alberta's brewing industry, while a fourth order rules that beverage parlor employees in certain specified cities and towns shall work not more than eight hours per day or forty-four hours in the week of six working days. The same order provides that the eight hours of work shall be confined within a nine hour period in any working day.

"The Alberta government is giving serious consideration to the question of working hours," stated Mr. Gerhart. "At the present time, however, it would be ill-advised to apply a sweeping reduction to all employees in the province. Enquiries are being held in connection with various industries," continued the minister, "and working hours are being reduced wherever it is considered to be most beneficial both to the employee and to the industry concerned."

T.B. QUESTIONS AND ANSWERS

Q. If a patient ran a normal temperature and pulse for a long time, would it be a fair indication that the activity of his disease was subsiding?

A. Yes.

Q. Can active tuberculosis be determined by X-ray alone?

A. Some specialists think this is possible at one examination, and it usually is possible when films taken at various intervals are compared.

Q. What do you advise as a good body builder?

A. Cod liver oil with some of the foods containing other vitamins, such as oranges, tomatoes, milk, etc., liberal in quantity and well balanced as to proteins, fats, starches and salts.

"You can only help yourself by helping other citizens."—C. E. Pickeering.

How Housewife Aids the Farmer

Even the busiest housewife helps this Dominion Department of Agriculture economist in a food consumption survey. Compiling results from hundreds of these interviews the Department gives farm marketing groups accurate information on the kinds and grades of produce which consumers prefer. Department economists conduct numerous surveys at the request of organized farmers, the food industry and provincial governments.

Export Bacon that Pays Best

Too many hogs are overfat on lard and ham. The cross-section of these two Wiltshire sides shows why British consumers prefer hams from Grade A carcasses (right) instead of from Grade B (left). Grade A hogs yield more lean meat per pound.

MAJOR
Lionel WIGRAM
Battle School Pioneer
KILLED IN ACTION

LIONEL WIGRAM SUCCESSFUL LONDON SOLICITOR AND CAPTAIN IN THE LONDON TERRITORIALS IN 1939 WROTE A BOOK ON THE BATTLE OF DUNKIRK THAT THE BRITISH ARMY HAS ADOPTED AS A MANUAL. THE MANUAL PROVED A SUCCESS AND WAS IMMEDIATELY ADOPTED BY THE BRITISH ARMY.

WIGRAM, YOU'VE BEEN PROMOTED TO LIEUT.-COL. AND WILL BE COMMANDANT OF THE FIRST BATTLE SCHOOL.

BACK TO ITALY! REVERT TO MAJOR

HE RESIGNED HIS POSITION AT THE SCHOOL OF INFANTRY TO BECOME AN OBSERVER IN THE SICILIAN CAMPAIGN.

AND SO ONE NIGHT WHILE LEADING A GROUP OF GUERRILLAS HE WAS KILLED.

HE FLEW HOME AND IMPARTED HIS FINDINGS TO FELLOW INSTRUCTORS THROUGH TALKS AND PHOTOGRAPHS.

HE IS REMEMBERED NOT ONLY FOR HAVING FOUNDED THE PRESENT SYSTEM OF ARMY TRAINING, BUT ALSO BECAUSE HE -

STARTED A HOSTEL FOR REFUGEE CHILDREN.

TOOK A KEEN INTEREST IN THE HOME FOR INCURABLES.

WAS PRESIDENT OF THE LONDON JEWISH AID SOCIETY.

This comics-style story of a British war hero is one page in a book issued for Jewish children by the Canadian Jewish Congress to stimulate their pride in the war effort of the community. Distribution is through religious schools. Other Jewish war heroes whose stories are told in this publication of the Canadian Jewish Congress are Sgt. Barney Ross of the United States Army, Wing-Comdr. Lionel Cohen, D.F.C. of South Africa, Leo Frida, Netherlands resistance fighter, and Flt. Lieut. S. S. Shulemon, D.S.O., D.F.C. of Montreal. The book reveals that 175 Canadian Jews have been honored for service during the war by the Canadian, American, and French Governments.

EDMONTON PLANS \$400,000 ARENA

Edmonton Exhibition association will proceed with plans for the erection of the stock pavilion and sales ring in the exhibition grounds. Dominion government assistance will be sought, with the provincial and municipal governments combining in erecting the structure.

Premier Manning has scotched the rumor that cocktail bars would be established in Alberta to draw tourists. When tourists visit a new country they look for something different from what is in their own country. Better to attract them with Alberta sunshine than Jamaica moonshine.

"There is a great future for gliding and soaring in Canada."—Sqn. Ldr. R. Kronfield.

Viking Items

Fair weather greeted the annual sports and race meet held here last Wednesday under the auspices of the Viking Curling Club and the agricultural society. Due, no doubt, to no stampede in connection this year, the crowd was not as large as in former years, but the program of sports and horse races attracted about two thousand people from this and neighboring districts.

A. W. Johnson, northern Alberta superintendent of the Prairie Farmers' Assistance Act, was in this district last week making calls.

H. S. Peterson has been re-elected.

ed by acclamation as wheat pool representative for sub-district F-4. Gordon Stalker and Bill Johnston took in the sights at the Calgary stampede last week. They brought along their own camping and cooking equipment and camped along the Bow river. They report the stampede as the best ever.

Mrs. J. E. Ash was in Edmonton last week to visit her daughter, Mrs. Robt. Montgomery, who is in the General hospital for medical treatment.

M. Pisci and Earl Hardy attended the annual convention of Elks lodges held at Saskatoon the first of this week, representing the Viking and Holden lodges.

Mrs. H. Paquette and Mrs. Earl

Lawes spent a few days in Edmonton last week.

Pat Stiles and Johnnie Anderson left Tuesday for the Y.M.C.A. camp for boys at Seba Beach. They were accompanied to Edmonton by Mr. J. M. Anderson.

Ronnie Ross and Billy Gillespie are on a motorcycle trip to Calgary and Banff.

Several of our local fishing enthusiasts are doing a spot of fishing at Boyne Lake this week. We hear they are out to beat B. C. Gilpin's record at the coast last month when he landed a 51-pound red salmon.

Mr. and Mrs. R. E. Westbrook and daughter left Tuesday for a holiday at Banff.

AT YOUR SERVICE

In 1886 — 60 years ago — the Dominion Experimental Farms were founded. Starting with five farms, the System has since been extended to 34 farms and stations and 210 illustration stations. This System, the largest and most comprehensive of its kind in any country, is maintained, with the other Services of the Dominion Department of Agriculture, for the promotion of agriculture and the national economy of Canada.

As a result of the work carried out in the past by all the Services of the Department in co-operation with the provinces and agricultural colleges, a much greater measure of stability has been given to farming in the Dominion.

Now that the war has ended all the Services of the Dominion Department of Agriculture — Experimental Farms, Science, Production and Marketing — visualize a broader and fuller program of usefulness to the people of Canada. The facilities of these Services are varied and extensive. Everybody in Canada is invited to take advantage of them freely. The Department is always ready to assist in any way in the advancement of the basic industry of Canada — Agriculture.

Dominion Department of Agriculture

Ottawa, Canada

Hon. James. G. Gardiner
Minister

Dr. G. S. H. Barton,
Deputy Minister,

If You Are
a No.1 Citizen
You will look after
No. 1...

THIS is not selfishness, but the realization that a community is no better, no sounder than its citizens. The welfare of our community—Canada—depends not alone on those charged with the government of the country, but on each of its citizens—12,000,000 strong.

Today, that welfare is menaced by the danger of inflation. Already, millions in lands devastated by war suffer misery because of it.

Inflation, to the citizen, means simply less and less value for his dollar... his living costs soar as free and careless spending drives up the price of goods still in short supply.

War always brings the threat of inflation in its wake... only the prudence of the people can keep it in check.

How? Mainly, by conservation... by buying only those goods which are in fair supply, and by saving money for the day when goods now in short supply will be readily available.

This helps to keep prices steady—to keep your dollar at its real worth.

This means that, if you are a No. 1 citizen, you will rigidly avoid black market purchases and you will save money by

- building up your savings account;
- keeping up your insurance;
- buying Government bonds and War Savings Certificates;
- holding whatever of these securities you have bought.

This is conservation—the first requisite for personal security—the first attribute of good citizenship.

Maintenance of Soil Fertility

Recently, a world-wide survey has been made to determine the degree to which soil fertility is maintained or lost under various systems of agriculture. This survey has shown that, in general, reliance is placed on three different methods to maintain soil fertility. Briefly, these are as follows:

METHOD 1. Natural recuperation of the soil without manuring. This method is employed in the modern extensive agriculture of Australia, Argentina, Western Canada, and in wheat areas of the United States. It seems that a wheat yield of around 13 bu. per acre represents the level at which soil fertility is maintained by this method.

METHOD 2. The use of local manures, chiefly animal, to supplement natural recuperation. This method is best seen in the traditional agriculture of China and Japan. About 20 bu. of wheat per acre represents the level of fertility reached by Method 2.

METHOD 3. The use of inorganic (mineral) fertilizers to supplement local manures and natural recuperation of the soil. This method is employed in the intensive farming systems of Great Britain, New Zealand, and for some crops, in the United States. The average yield of wheat in countries where this method predominates is around 35 bu. per acre.

From this survey it is clear that the first method maintains soil fertility at the lowest level. The method is, in effect, one of "mining the initial fertility of the soil. Unfortunately, it is the method that is widely employed in Western Canada. Already, it has led to soil exhaustion and to severe soil erosion.

If we are to secure and maintain the increased crop production that world so vitally needs, it is imperative that we increase the use of mineral fertilizers. We must stop burning stubble and straw, and wasting farmyard manure.

to make good progress and have further benefited from recent light to heavy rains in most districts. Good, timely rains, however, are required to carry crops to maturity. Some damage from hail is reported in the northern areas and weed growth is heavy in some districts.

Manitoba—Crops are making rapid progress under favorable weather conditions and are generally fair to good, with most of the wheat headed out. Recent rains have been beneficial, although further precipitation is required to maintain present prospects and bring on late-sown crops. Damage from hail and pests is negligible. Pastures continue to improve.

"There is a vastness of opportunities which await the vigorous and intelligent attention of the modern corporate body, and the adventurous spirit which has been displayed by the members of our armed forces should now be put to use in the development of Canada."

—W. P. J. O'Meara, K.C.

PEPIN AND SONS

PIANO AND ORGAN WORKS
10050A 105 Street (in the lane)
Edmonton, Alta.

DID YOU KNOW THAT:

1. We have the best equipped shop in Alberta for repairing and re-building pianos and Reed organs?

2. We have over 40 years of practical experience building regulating and tuning pianos and organs?

3. We are in a position now to cover all of Northern Alberta at least once a year?

4. Your piano should be tuned and its mechanism checked and regulated at least once a year?

5. We are Western Canada's only combined piano, reed organ and pipe organ builders and tuners?

6. We will gladly supply you with any information about your piano or organ by writing to us?

7. If you want to have your piano overhauled, restrung, re-pinned, mechanism repaired, keys recovered or case re-finished, you could ship it to us by freight or truck and we will gladly give you a price covering a complete re-conditioning job?

NOTE—We guarantee our work for FIVE years.
WE SELL—"Quidoz" and "Bell" pianos; "Sherlock-Manning" reed organs; portable organs; "Casavant famous pipe organs."

We have a large stock of re-conditioned pianos and organs. See us before buying, and save money.

Jarrow News

Rev. Geo. A. Steel conducted farewell services on Sunday, July 14 at Kinsella in the morning and Melbrae in the afternoon. At Kinsella the infant daughter of Mr. and Mrs. Lloyd Witton of Zeballos, B.C., was baptized and three persons were received into church membership. At the close of the service Mr. R. Cormack, chairman of the church board, made a presentation to Mr. and Mrs. Steele as a token of appreciation, from the church and its organizations, with a wish for every blessing and success in their future ministry.

Three young people were received into full membership at Melbrae and at the evening service in Jarrow, Clifford Lloyd, son of Mr. and Mrs. Percy Wright, was baptized.

Next Sunday, July 21, farewell services will be conducted at Batts and Jarrow.

Mr. and Mrs. Steele will be moving to Edgerton, beginning services there about the first of August.

MEDICAL CHIEF

Major-General C. P. Fenwick, C.B.E., M.C., E.D., director general of medical services for the Canadian Army in the late war, who has been named chief of medical services for the Canadian Pacific Railway, with headquarters in Montreal.

VERMILION EXHIBITION TO ENTERTAIN VETERANS

Vermilion's Friendly Fair will celebrate its fortieth anniversary on July 25, 26 and 27 and will mark the occasion with a practical demonstration of the appreciation of the service of men and women who served in the armed forces during the war.

All veterans and their families will be admitted to gates and grandstand all day Thursday, July 25, without any payment of admission up to 6 o'clock in the evening; veterans may bring as many members of their family as they wish and the only requirement for admission will be for them to display their war service badge.

The Dept. of Veterans Affairs is to have counsellors in attendance to advise veterans and special shows and demonstrations will be provided for the men and women who gave such fine service to Canada.

Veterans, regardless of their location, will be freely welcomed to Vermilion Fair on Thursday, July 25, and the management trusts that hundreds will be on hand to take advantage of the free entertainment. No charge will be made to children, wives or fathers and mothers of veterans. Cars of veterans will also be admitted free to the grounds on that date.

BANK OF MONTREAL CROP REPORT NO. 5

Alberta—With adequate moisture, crops are progressing very satisfactorily. In the Peace River and south-eastern districts, conditions are less favorable than elsewhere and rains are needed for development. Wheat is mostly in shot blade, stands are thick and early-sown fields are headed out. Hail damage has occurred at a few points but the acreage involved is not large.

Saskatchewan—Crops continue

HABITS AND DISEASE: The house fly passes directly from filth to human food carrying bacteria and other organisms. It is supreme as a simple carrier of diseases including typhoid, dysentery, diarrhoea, tuberculosis, etc. Blow fly larvae in wounds cause myiasis.

CONTROL: Clean up possible breeding places such as garbage dumps and manure piles. Manure should be kept in fly-proof receptacles and removed twice weekly.

Spread manure thinly in fields to dry or place in compact piles with clean-cut edges to produce heat by fermentation. Spray top layer with one pound of borax to six gallons of water. Keep garbage in fly-proof receptacles and destroy by burning. Prevent flies from having access to human faeces. Screen foodstuffs and use sprays, aerosols, poisoned baits, etc. Dispose of carcasses and offal by burial or incineration.

A Powerful Force

SINCE THE FIRST ATOMIC BOMB was dropped on Japan the attention of the world has centred a great deal of the time on the potentialities of atomic energy and its possible effect on the future. The discovery of this new and powerful force was one of the great milestones in history and thoughtful people everywhere realize that it has brought a new era in the affairs of man. Used as a weapon of destruction it could most completely wipe out the civilization which has been built up through the centuries and this possibility has added to the elimination of differences between nations and the assurance of lasting peace. Never before in the history of the world has the alternative to peace been so terrifying.

The Centre Of Many Problems

The Canadian Institute of International Affairs recently released an interesting pamphlet in which the relation of atomic energy and world government was discussed. The writer is Dr. Leopold Infeld, a noted Polish physicist and mathematician, and a former colleague of Toronto. Dr. Infeld points out that atomic energy is a problem that is now, and will for many years to come, be the centre of all technical, social and economic problems. This is a broad statement, but it is already clear that atomic energy is in some way connected with many of the most pressing problems of our times. The possibilities of its practical applications are many, and they may in time revolutionize many of our present practices and be of great benefit to all mankind.

May Mean Either Life or Death

When atomic energy is applied to industry, Dr. Infeld suggests that the world will face a revolution much more far-reaching than that which came with the invention of electric power. The full development of atomic power suggests factories run by control machinery only, which would mean a reduction in the amount of labor required, and consequent far-reaching social and industrial changes. Such uses as that at present appear to be remote, and its applications to war are much more real. Problems of international relations are now more important than they have ever been before, for, as Dr. Infeld concludes, the results and compromises achieved in this field may mean the difference "between life and death, not to one nation alone, but of our entire planet."

MECCA

Living Longer

Life Expectancy In The United States Has Greatly Increased

In 1944, for the first time in our history, the average length of life (expectation of life at birth) of the American people, including military personnel within the country, exceeded 65 years. The actual figure, 65½ years, is almost 14 years greater than at the beginning of the century.

As a result of this truly remarkable gain, the person of age 20 now has, on an average, as many years of life remaining as the newborn child had in 1900. Even more striking is the observation that, whereas according to the earlier mortality only three-quarters of the babies would attain age 25, under present conditions three-quarters of them will reach age 57.

For white females in 1944, the average length of life was 68.05 years. White females who have attained their first birthday anniversary will live, on an average, to age 71. For those who have attained their 49th birthday, the figure is 75 years.

The increase in longevity among white females in 1944, as compared with 1943, was two-thirds of a year. It was more than ten years over the average figure for 1919-1921, and almost 18 years over that for 1900-1902.

Although white males in 1944 reached a high level of 65.55 years in average length of life, their record was a little below the peak attained in 1942. The chief factor in this slight setback is the relatively high mortality from accidents among men in the military services. The gain in average length of life among white males since 1900 amounted to 15½ years—Metropolitan Life Building.

Reward For Inventors

For Use During The War Of Designs And Processes

A Royal Commission is being set up to decide what awards shall be given to inventors for use during the war of their "inventions, designs, drawings or processes" by British and Allied Governments.

Later the commission will arrange the procedure for submitting claims. Government employees will not be excluded from compensation for inventions but their contributions will be judged on the same footing as outside work.

American royalty rights on inventions will also be taken into account.

EXAMPLE TO WORLD

British Commonwealth Has Experience For All Who Care To Learn

Mr. Vincent Massey, late Canadian High Commissioner in Britain, in his last public address before giving up that post:

"The British Commonwealth is today an example to the world which is running a race with catastrophe and which is looking so desperately for grounds of mutual understanding. The Commonwealth has reservoirs of experience for all who care to learn from it."

One lesson which we can pass on to the fledgling United Nations is that of patience. The harmony of freedom and co-operation which we enjoy has not been won without setbacks and failures. Another hard lesson which our example has to offer is that institutions can be built successfully only when they are founded on aspirations. No such bond yet exists between members of the United Nations; they must be given every encouragement to agree. That will take time, and until then the Commonwealth cannot relax its vigilance.

The great inheritance which all of us in the Empire share is based on many streams. But the source from which our ideals have been spread out all over the world has been Britain; and although her partners are beginning to undertake larger tasks Britain is still first and unequalled.

How urgent a need there is today for all that she can offer the world in leadership and guidance. If civilization would have perished in 1916 without British valor and British skill—as it would—today without the qualities which belong to Britain it will just as surely lose its way.

FOR INDIAN NAVY

Three "cruisers" of the famous "Leander" class that defeated the pocket battleship Graf Spee in 1939 are to be acquired by the Royal Indian Navy, with the agreement of His Majesty's government. Indian personnel for manning the warships will be trained in the United Kingdom.

Price Control And Rationing Information

Q.—When do we receive more sugar coupons for canning purposes?

A.—On July 4 green sugar coupons S17 to S21 inclusive will become valid for the purchase of canning sugar. Each coupon will purchase one pound of sugar. If you do not wish to do home canning, these extra coupons may be used for the purchase of canned fruit, commercially packed jams and jellies, or sugar to supplement the regular ration.

Q.—I am a beekeeper and sell honey. Must I register with the Ration Administration?

A.—All beekeepers who produce honey for sale are required to register with the Ration Administration as Primary Producers of honey. Beekeepers who do not sell honey and who produce only for the use of their own households are not required to register with the Ration Administration.

Q.—I am planning on going to Eastern Canada for two or three months. Will I be able to obtain my ration book from a distributing centre while I am on my vacation?

A.—Ration books can be picked up at any convenient distribution centre, whether it be in one's own district or out of it, in one's own town or in another province altogether. Any person entitled to a ration book can get it at any one of the distribution centres in Canada.

Q.—Are the prices of fresh cherries controlled by the Wartime Prices and Trade Board?

A.—Yes, fresh cherries must be sold at prices set by the Wartime Prices and Trade Board.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

WINTER WHEAT

Continues To Attract Attention In Southern Alberta

Winter wheat continues to attract increased attention in Southern Alberta. The two chief reasons of this are the premium paid for winter wheat and the scarcity of farm labor. Previous to the war, winter wheat usually sold at a discount of from five to ten cents per bushel over spring wheat, but during the war years it has commanded a premium of ten cents, the price that is still being paid for it. Many farmers who aim to hire little or no labor find that winter wheat helps considerably in solving their labor problem, so it usually ripens about two weeks earlier than spring wheat.

At the Dominion Experimental Station at Lethbridge winter wheat has been under test continuously since the station was established in 1907. In a rotation that was commenced many years ago Kharokov winter wheat has given an average yield of 27.3 bushels per acre over a 28 year period, as compared with 25 bushels per acre for Marquis under the same conditions, and only one complete failure occurred from winter killing during that period.

Kharokov, preferably the Kharokov M.C. 22 strain, is still one of the best varieties. Yogo is also a good variety. Many farmers prefer a hardier variety and generally choose Jones' Fife (often called Velvet Chaff). This variety yields well and frequently gives good results under ideal conditions, but it shatters readily and is definitely less winter hardy than the other two varieties mentioned.

The first week in September appears to be the best time to seed winter wheat in Southern Alberta. Earlier seeding gives the ground more protection against wind erosion but when sown too early damage from root rot usually occurs.

Atomic Bombs

United States Has Developed Long Range Planes To Carry The Load

DETROIT—The United States has developed a bomber capable of flying from this country "to drop an atomic bomb on any industrial centre in the world," said Mr. Stuart Symington, Assistant Secretary of War for Air.

"If we can do it," he said, "others can do it to us."

In an address to the Economic Club of Detroit, Symington revealed for the first time the full capabilities of the Army Air Force's new B-36 bomber and the recently unveiled B-50. Both, he said, can fly 10,000 miles with an atomic bomb.

With such new 'planes in the air, he pointed out, "the Polar paths of air routes will be more important than any others."

In addition to atomic bombing operations made possible by the new long-range 'planes, Symington said, the blueprint for the post-war U.S. Air Force also will emphasize the value of guided missiles and rockets for attacks of atomic bombs.

Symington warned, however, against "too much economy" in planning future American air power and charged that there already was "the same old talk" about restricting the U.S. Air Arm.

SCOUTS NEEDED

The Boy Scout movement is needed more than ever before, to improve the sentiment and good feeling between all races, Viscount Alexander, Governor-General of Canada, said at the annual meeting of the Canadian General Council of the Boy Scouts Association.

TOP PILOTS

British Overseas Airways Corporation has a name for 52 of its pilots—"millionaire millionaires." Each has flown more than 1,000,000 miles.

Medical Services

For Indians And Eskimos To Be Improved

Improvements in medical services for Indians and Eskimos were urged in the Commons by John H. MacNicol (P.C. Toronto Davenport) during consideration of health estimates.

Mr. MacNicol welcomed an increase of \$1,577,390, from \$2,556,000 to \$4,103,390, in this year's appropriation for such services. He said he was interested in a "real change for the better" and suggested the establishment of more small hospitals near reservations.

He also recommended that the teachers in Indian schools be given a course, possibly during the summer holidays, in first aid. This would enable them to tend minor ailments and injuries for the Indians.

Threat To Shipping

Estimate Places Japanese Mines Adrift In Pacific At \$60,000

An estimated 30,000 Japanese mines adrift in the Pacific have been classified as a continual threat to shipping by Rear Admiral Arthur D. Stubble, commander of the Pacific amphibious force.

Simultaneously, the Star-Bulletin said six ships, including five American vessels, had been damaged by mines since V-J Day and that stray mines had been sighted in Hawaiian waters and one only 600 miles off San Francisco.

GEMS OF THOUGHT

RIGHT OR MIGHT?

If mankind had wished for what is right, they might have had it long ago.—William Hazlitt.

It has been said of the world's history hitherto that might makes right. It is for us and for our time to reverse the maxim, and to say that right makes might.—Abraham Lincoln.

God reigns, and will "turn and overturn" until right is found supreme.—Mary Baker Eddy.

So let it be. In God's own might We grid up for the coming fight, And, strong in Him whose cause is "Gurs."

In conflict with unholty powers, We grasp the weapons He has given, The Light, and Truth, and Love of Heaven.—Whittier.

Nothing but the right can ever be expedient, since that can never be true expediency which would sacrifice a greater good to a less.—Whately.

No man has a right to do as he pleases, except when he pleases to do right.—Simmons.

ELECTED PRESIDENT

WINNIPEG—N. M. Bentley of the Alberta school of agriculture, Vermillion, was elected president of the western Canadian society of agronomy at the closing session of a two-day conference.

Police Fly Body Of Slain Trapper To Sudbury

The body of Daniel Tessler, Dalton Mills trapper, murdered in the north, in wicker basket, was flown to Sudbury in this plane for post-mortem examination. Tessler was found near his Jackpine-river home with a bullet hole behind the right ear. Police say he was shot from ambush.

OUR COMPLETE SHORT STORY—

CRAZY FOR MONEY

By ERNEST MILES

Copyright
Wheeler Newspaper Syndicate

BACK for the "Crazy For Money" program, Bud Watson was on the platform waiting to go on the air. If you listened to the show two weeks ago you will remember Mart Ringerly, the Master of Ceremonies, introduced Bud. He told how Bud had just been discharged from the Army and had volunteered for any stunt asked of him. But was to go out to Roscoe's Mammoth Carnival in the Fair Grounds, and to act as a spieler for Captain Billy's Bathing Beauties.

Captain Billy Swanson was there to take him out and as a prize Mart gave Bud half of a \$100 bill, telling him to return in two weeks and relate his experiences, promising him the other half of the bill if he made good.

And now the program was on the air and Mart Ringerly was saying, "Hello! Hello! Hello! Tonight we are going to hear what happened to Bud Watson, who two weeks ago went out to the Carnival to be a spieler on Captain Billy's Bathing Beauties show. Captain Billy is here, too, and I see he has a beautiful very pretty blonde with him. We'll start with you, Captain. But first, who is this lovely girl?"

"Oh, this is my daughter, Dora, who got herself involved in the stunt so I brought her along, too."

This sounds mysterious, but tell us first what you did with Bud. "Well, I told Bud to stand by the ticket booth and watch me do a couple of balloons. That's how my daughter got mixed up in it, so Dora was selling tickets and Bud paid a whole lot more attention to her than to me.

"There was a big crowd of folks who had heard your broadcast and had come out to hear the fun. They began calling for Bud so I brought him onto the platform. That big, red-headed six-footer just stood there tongue-tied. However, I managed to get him going and he did pretty well so I sent him inside to announce the events. The crowd swarmed in after him. We did a whole of a business and Bud got better all the time."

"Then you would say Bud was a success and deserved the money?"

"He did all right but he was still paying more attention to my daughter than to the show. It ended up with my having him thrown into the tank of water."

The audience was screaming as Mart asked, "You mean to say the evening ended with Bud in the water?"

"Oh, not that night. It was three nights later that happened."

"What in the world has three nights later got to do with it? We'd better get Bud to straighten this out. Bud, tell us what happened."

Bud stammered a bit. "Well, as the Captain told you, we went out to the show and I was to listen and learn from him what to do. But that girl in the ticket booth set my head in a swirl and I just couldn't concentrate on what the Captain was saying. She was very cool with me and told me to run along and attend to my own business. Then Captain Billy called me onto the platform and there I was in front of that crowd, standing with six girls wrapped in dressing gowns. Gee, I couldn't say a word."

"The crowd laughed at me and Captain Billy said, 'get going, kid!'"

TOO WEAK TO DO ANYTHING

On CERTAIN DAYS of Month? This new medicine is very effective to relieve painful, distressing and tired, nervous, irritable feelings, of such days—when due to female hormonal disturbance.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

GIRL SWIMS 13 MILES—Swimming 13 miles in seven hours, Patricia Smith, 19, is recovering in hospital at Sturgeon Bay, Wis., sole survivor of a tragedy on Lake Michigan. Her father, a wealthy shipbuilder, and three guests on their 33-foot sloop drowned when the vessel capsized in a sudden squall.

Mary Lomis of Chicago was one of the guests who drowned when the Smith sailboat overturned. Miss Smith said she loved Mary, who had a lifebelt, for several hours "until I just couldn't hang on any more. I lost my grip and she vanished in the waves." The lone survivor thinks the vessel was caught in the fringe of a tornado.

Conserve Timber

The Great Loss From Fires Has Been Stressed

The current slogans urging Canadian manufacturers to export should carry a warning that export is conditional upon conservation of natural resources. Garfield Weston, well-known industrialist, said in a message to the Canadian Forestry Association.

"More than \$300,000,000 of annual exports from Canada derive from the pulp and paper mills. This is greater than our sales of gold or wheat. The pulp and paper industry stands first in total values paid and in capital invested."

"About 4,000 of our people find means to incorporate 400,000,000 cubic feet of the national wood supply every 12 months. Export stops on lands that fire passes over. And a gap of 50 to 100 years may ensue before the burned district comes to life again."

"Good luck to both of you."

"Thank you very much, it has been a wonderful experience," said Bud and passed the bill over to Dora. "There," said Mart, "It's the woman's money. Tell us, Dora, what are you going to do with that money?"

"Well, Mr. Ringerly, Bud promised it to me towards the finest trousseau a girl ever had, but Bud is the best prize of all, a real Valentine, and we're going to be very happy."

"I'm sure you will be," said Mart, "and Bud may have been crazy for money but he certainly is wise in his choice of a wife."

Farm Research

Agricultural Groups See The Need For Further Information

An increased demand for the services of agricultural economists was forecast by Dr. J. P. Booth, head of the Dominion Agricultural Department's Economics Division in an address to the 17th annual meeting of the Canadian Agricultural Economists Society at Macdonald College, Ste. Anne de Bellevue.

The Economics Division must provide information useful to farmers, those marketing agricultural products and governments dealing with the farmers' industry, Dr. Booth said.

Since establishment of the division in 1929, much of the initial work had been to build up factual information on problems faced by the individual farmer. During the war, much of the research had been curtailed, but the division had helped in developing and administering numerous farm policies.

Practically every type of activity carried on before the war was represented in requests made to the division by agricultural groups throughout the country for additional research work.

The Chinese used rockets in 1223 to repulse the hordes of Kublai Khan.

Head Colds

Mentholatum quickly relieves head colds, checks sniffing, soothes irritated membranes, lessens sneezing, 50c.

MENTHOLATUM

LOUIS XIV had 413 beds. Some were decorated with pearls, silver and gold.

NAVY VISITS ALASKA—Visitors to the model Indian village near Ketchikan in Alaska, two members of the University naval training division, Bob Lobinger and Don Maxwell, met papooses.

THANKS CANADA

Viscountess Alexander Grateful For Help Given During The War

Large supplies of oranges and milk, large newspapers and envelopes which were used only once are details of Canadian life which impress anyone arriving from Britain, Viscountess Alexander said.

Speaking to the Ottawa Women's Canadian Club, the Governor-General's wife told her hearers of her children's excitement at the thought of coming to Canada and their delight with the trip.

"They have made themselves completely at home, so much so they have needed some firm handling," she said.

"My husband's and my idea that we should keep our children out of school until next September, until they became accustomed to their new home. But I wasn't here 10 days when I knew ours was not a wise decision, and in a few more days I sent them off to school."

Lady Alexander thanked the women of Canada for their help to Britain during the war. The Red Cross had helped to finance 100 war nurseries, the Junior Red Cross had sent comforts, the Imperial Order, Daughters of the Empire, Red Cross clothing, the Kinmen Club milk, and the Queen's Canadian Fund kitchen utensils and household goods.

SELECTED RECIPES

BAKING HINTS

Before starting to mix a cake, read the recipe carefully, be sure that all the ingredients are at hand, and that the process of putting them together is thoroughly understood.

Use only the best materials. Good quality shortening (butter gives a better flavor) and using a pure high strength baking powder that assures baking success.

Use fine or castor sugar, coarse sugar does not blend well with other ingredients, if the supply of sugar is limited, the good plan is to sift it, and use the coarse particles for general sweetening fruit, pies, etc.

Measure all ingredients carefully, use the correct method of mixing, and bake as directed. Grease tins with lard, not butter. Pre-heat your oven, using top and bottom heat, but when your cake is put in to cook turn off the top element for baking. Cakes put in the oven at too low a temperature, cause excessive steaming and makes them heavy.

BUTTER BUDS
2 1/2 cups pastry flour
1 cup brown sugar
2 teaspoons Melrose vanilla
1 cup butter or shortening
2 well beaten eggs
1/4 teaspoon salt
1/4 teaspoon Melrose baking powder
Method—Cream butter, add sugar gradually, then the well beaten eggs. Sift 2 cups of flour with baking powder and salt, combine the mixture, and add favoring. This should now be the texture of dough, add the remaining 1/2 cup of flour if necessary. Roll into small balls marking each one with a floured fork. Bake in a 350 to 375 oven for from 10 to 12 minutes. This makes 12 dozen butter buds and are delicious.

POSITION WANTED

The sergeant was trying to train an awkward squad of recruits.

"Shun! About turn!" he roared. Then, as he viewed the hopeless mix-up, he went on: "As you were!"

Most of the men shuffled into the last position, but Private Jones stood still, looking vacantly ahead.

"You!" snapped the sergeant. "I said 'As you were!'"

"I 'eard, sarge," replied Jones, unhappily, "but 'ow were I?"

Louis XIV had 413 beds. Some were decorated with pearls, silver and gold.

Outstandingly Good

"SALADA" TEA

"Yes, yes, of course I'm glad to see you—who's your cute friend with the crisp, crunchy, delicious Grape-Nuts Flakes?"

"Ha! Ha! I fooled you Jim! That's our new cook. She won't serve anything but mullin, sweet-as-a-mullin, Post's Grape-Nuts Flakes for breakfast."

"Well what are we waiting for? Let's get home quick and dig into that giant economy package."

Far-Reaching Effect

Lack Of Baling Wire Means Less Feed For Livestock

The Wall Street Journal reports that manufacturers in the United States have been cutting down seriously on the production of baling wire. The price ceilings have made it unprofitable for the steel mills. Lack of baling wire means lack of hay; lack of hay means less feed for livestock, and that in turn means thinner meat animals for slaughter. It all goes to show what a complex organism modern society has become. And it reveals the same old story, for want of a nail, the shoe was lost, for want of a shoe the horse was lost, and for want of a horse a rider was lost. No farmer can bale his hay with from 10 shod strings!

Street Renamed

Greeks Show Their Appreciation For Assistance From Canada

Lykabettus street, prominent thoroughfare in Athens, was renamed Mackenzie King street in a ceremony July 1, 79th anniversary of the confederation of Canada.

The municipal council of Athens said the street was renamed "in recognition of the gratitude of the Greek people to the Canadian Prime Minister and the Canadian people for the moral and material assistance which has been repeatedly extended to this country."

Bees seldom visit red flowers because these insects are blind to red.

ITCH CHECKED in a Jiffy

or Money Back

For quick relief from itching caused by eczema, urticaria, hives, itching, mosquito bites, insect bites, etc. Apply Brier's Itch-Checker. It's the only itching powder that's guaranteed to stop itching. Don't suffer. Ask your druggist today for Brier's Itch-Checker.

"Now, made, can you pick out the man who snatched your bag?"

"Oh, I think so, Inspector—do I have three guesses?"

Aspiring Vocalist: "Professor, do you think I will ever be able to do anything with my voice?"

Perspiring Teacher: "Well, it might come in handy in case of a fire or shipwreck."

"Pa," said the subscriber's little daughter, "I know why editors call themselves 'we.'"

"Why?"

"So the fellow who doesn't like what's printed will think that there are too many for him to lick."

Customer: "Can I exchange this unbreakable doll?"

Shop Assistant: "Is there something wrong with it?"

Customer: "No, only the baby's broken every breakable thing in the house with it."

"You told me you hadn't any mosquitoes," said the summer boarder, reproachfully.

"I haven't," said Farmer Homespun. "Them you see flyin' around come from Si Perkins' place. They ain't mine."

Jimmy told his mother he was going to be a preacher when he grew up. Upon being asked why, he replied:

"I'll have to go to church anyway, and it's much easier to stand up and yell than to sit still and listen."

"I say," he complained, "It's not necessary to knock me down like that, is it?"

"Eless ye, no!" replied his teacher genially. "Up 'e jump an I'll show 'e thirteen other ways of doing it."

Foreman (to small son of workman who has met with an accident): "When will your dad be ready to work again?"

Boy: "Can't say for certain, but it will be a long time."

Foreman: "What makes you think that?"

Boy: "Compensation's set in!"

Waiter: "What's wrong with those eggs, sir? Weren't they cooked long enough?"

Customer: "Yes, but not soon enough."

Patient: "I can't say why, but I got a sort of a pain, I don't know where. And it leaves me in kind of a sort of—well, I don't know."

Doctor: "Here's a prescription for I don't know what. Take it I don't know how many times a day for I can't tell how long, and you'll be better I don't know when."

Advertising Peps Up Business**USEFUL HANDBOOK**

The 1946 revised edition of the members' handbook of boys' and girls' club clubs has been issued recently. The handbook, finely illustrated, is in keeping with its purpose of providing members and leaders of the dairy clubs with a concise yet comprehensive review of the breeding, feeding, management and judging of dairy cattle.

The handbook has had an interesting history. It appeared first in mimeographed form and at that time was intended solely for use in New Brunswick. In 1931, at the request of the three Maritime Provinces, the edition was printed by the Dominion Department of Agriculture and has since then been used in most of the provinces. The 1946 edition has been made in collaboration with Geo. Muir, Dominion Animal Husbandman, Central Experimental Farm, Ottawa; Dr. M. Barker, Veterinary Director General, and W. D. Davies, Assistant Chief, Production Service, Dominion Department of Agriculture, Ottawa.

"A closed door policy does not harm those shut out but rather the country which is denied their contribution to its life."—M. J. Coldwell, M.P.

LOCALS

E. Rae and family and W. Rae and son, Robert, attended the Calgary stampede and visited friends in Calgary. On the return trip they visited Mrs. E. Rae's father, Mr. Cy Blades, of Morrin, Alta.

Mr. and Mrs. Jno. Archibald had the pleasure of a few days visit from Mr. and Mrs. T. Towes and son of Acme last week.

Mrs. Ross Archibald has left for her home at Belloy, Alta. after spending a few weeks at the Archibald homes.

The Irma baseball team won second money at Mannville on July 12. The scores were, Irma 6, Mannville 0; Vermilion 9, Irma 2. Mr. and Mrs. S. M. Brown and Shirley Mae left on Monday afternoon to spend a week's holiday with friends near Ankerton.

Mrs. T. Brooks spent a few days in the city returning to Irma on Saturday evening.

Mr. and Mrs. Carl Larson have returned from a trip to the States where they attended their daughter's wedding.

Mr. and Mrs. J. M. Holt, Phil and Barry Holt, Mrs. G. M. Holt and Charlie, all left the Bar Heart Ranch early Thursday morning en route to the Calgary stampede.

Mr. Bruce Madlow was a visitor in Irma last week.

Mr. and Mrs. E. W. Carter left for their holiday on Friday morning. Their trip will include Regina and Indian Head.

We fully expected to have a fish story for the Times this week. Three or four of our local business men sallied forth last week with fishing as their objective. But no report of good or ill has come our way, excepting a rumor that on the day after the party's return one of the members was seen buying fish at a local store. We still feel there must be a fish story somewhere, if it's only the time-honored tale of "the one that got away."

Mr. and Mrs. Vic Hutchinson have built a fine new addition to their house.

New Horning, one of our old-timers, was in Irma last week renewing old acquaintances.

Bertha and Jack Greer left on July 4 for a visit with relatives in Regina.

Mrs. Thompson and her daughter, Lieut. Thompson of the WAVE's, are holidaying in the Irma district. Mrs. Thompson is a sister of Mrs. M. Tripp.

While Mr. and Mrs. Wilbur Meyers and family were at Wainwright on Monday evening, their home, northwest of Irma was struck by lightning and completely demolished.

There was hail around Irma district on Monday and Mr. Dubaz, now living on the old Howard Peterson farm, had the misfortune to sustain a 100 per cent loss.

Mr. and Mrs. M. D. Askin are enjoying a visit from their daughter, Mrs. Bland, of Oakland, Cal. Mr. and Mrs. Les Robertson were guests at the wedding of Mrs. Robertson's brother, Arthur Currie.

Mr. and Mrs. P. E. Jones, of Irma and Mr. and Mrs. Lee Harvey of California, were recent visitors at the Steve Jones home in High River, Alberta.

Mr. A. C. Charter has accepted the town secretaryship vacated by Mr. E. W. Carter. Mr. Charter assumed his new duties last Thursday.

Don't forget the United church Sunday school picnic at Hardisty Lake on the afternoon of Wednesday, July 24.

On Friday Mr. William Masson moved into the house vacated by Mrs. M. Arnold. Mr. Masson has purchased this property and has sold his former residence to Mr. and Mrs. Gus Prosser.

The Irma C.G.I.T. girls returned from Bar Harbor camp on Buffalo Lake on Tuesday afternoon. Although only eight girls attended from Irma, there were 83 girls at the camp from various points. The Irma girls seemed to have enjoyed camp and are especially delighted with the many new camp songs they have learned.

We are glad to know that Miss Lorraine Smallwood has almost recovered from her recent illness.

Don't forget to take advantage of the opportunity afforded by the community auction sale being held on August 3.

Mr. E. Stockton was badly scalded on his neck, arm and chest last Friday when he attempted to fill the radiator of his tractor.

Mrs. Bill Inklin and daughter, Carolyn, left by train for Edmonton on Tuesday afternoon. They will visit with Mrs. Hobbs.

Dr. F. J. GREANEY,
Director,
Line Elevator Farm Service,
Wainwright, Manitoba.

Field Crop Variety Plots

This summer it is expected that variety plots will be offered by Line Elevator grain buyers at 120 shipping points in the Prairie Provinces. Nine of these will be in Manitoba, 81 in Saskatchewan, and 36 in Alberta.

Plots and Varieties. The plots at 92 points will include 51 different varieties, all of which are officially recommended for one or more areas in Western Canada. Of these, 39 varieties are annuals such as wheat, oats, barley, flax, sunflowers, peas, etc., and 12 are biennial and perennial grasses. The latter group, of course, will be of chief interest during the second and third years. At 34 points, only annuals will be grown.

Purpose of Plots. The variety plots are demonstration plots. Since they are planted for observation only, yields are not recorded. This means that the material can be harvested for use in junior grain club work, school fairs, schools, etc. In the past, several grain buyers have, in co-operation with government officials, organized very successful field days at their plots.

An Invitation. Farmers, teachers, government officials, and others are invited to make full use of our variety plots. Visits to them are worthwhile because it is possible to see all recommended varieties, and to make many interesting comparisons. This year the plots include three new wheat varieties, namely Redman, Rescue, and Stewart. Line Elevator grain buyers in charge are provided with information on the history and characteristics of each variety. They will welcome your interest in their plots.

**Going On Vacation?**

Vacation time is here again. Perhaps you are taking a trip. Perhaps you are going camping or visiting friends in the city. Wherever you are going, outfit for the whole family may be found in EATON'S Summer Catalogue to make your vacation a happy one.
